Dear TSG 2 coordinators.

TSG 3 would like to officially ask your support and help to involve an Italian partner in the ASOSCoP project preparation as one of the very important country to be involved in the project. Since the deadline for submission of the project proposal is approaching very is important to be effective and not to lose any additional time.

For quite some time the Lead Partner of the project, Ministry of the Sea, Transport and Infrastructure, Croatia, is trying to involve an Italian partner in the project proposal but with no success. Please find more information and argumentation about the project proposal and its importance in the official letter attached.

There were e-mails regarding the collaboration of an Italian partner but not any concrete answer or other yet. Since the deadline of the project proposal is on 19th March 2020, the time is very limited and quick response is needed ASAP.

If you could solicit the [Ministero dell'ambiente e della tutela del territorio e del mare](#) or if you have any possible feedback regarding the issue, please let us know.

We are aware about the situation regarding the COVID-19 and also in other countries the measures are more and more restricted but we are trying to do our best working on-line or by phone not to lose possibilities that will be very important for the future.

Thank you for your support and looking forward to hear from you.

For any further we remain at your disposal.

Best regards,

FP, On behalf of TSG 3 Coordinators Mitja Bricelj, PhD and Senad Oprašič, PhD,

Municipality of Izola, project partner EUSAIR Facility Point
