Its combination of electric and
clean

ALWAYS  ON

 Marriott

SCOPE OF THE SESSION (I)

- **Accelerated transition towards decarbonised energy systems through the European Union and States from the Western Balkans Region**
- **Energy security and competitiveness are concurrent objectives**
- **Need for large-scale deployment of renewable energy sources amongst few other options**
- **Significant differences between/amongst EUSAIR Participating Countries**
- **Need for defining a renewable energy road-map for the Region with goals, timelines and scenarios for the long-term: a new EUSAIR Master Plan on Energy for the Adriatic and Ionian Region?**

ACCELERATE

SCOPE OF THE SESSION (II)

- **Identification of roadblocks and how to overcome**
- **Renewable energies for the energy end users (electricity and non-carbonated fuels) towards increased electrification and hydrogen economy**
- **The changing governance and structure of the energy system: new energy market and institutions?**
- **New stakeholders and their involvement, public acceptance and social support: a role for the EUSAIR Stakeholders Platform?**
